MEMORANDUM FOR: Project Director
SUBJECT : Coverage of Soviet Long Range
 Bomber Program
REFERENCE : [REDACTED] 30 October 1957

25X1

1. In paragraph 3 of the reference which deals with long range bomber coverage there is a count list of six targets and a production list of two targets. Herb Macia has just advised me that Air Force will seek the addition of IRKUTSK to the production list and ORESHA to the count list. Emphasis is on IRKUTSK in terms of priority with ORESHA second.
2. Herb Macia is coordinating the Air Force justification with the Army and Navy and will forward same to this office this afternoon.
3. I notified Jim Reber who advised me as follows:

- a. In the case of ORESHA its physical location (between Minsk and Smolensk) would indicate that the permission we seek is not effected.
- b. In the case of IRKUTSK restaging and a new season must be awaited and therefore, the permission we seek is not effected.
